CONSIDERING THE VERITABLE RAINBOW OF LETTERPRESS PRODUCTS ON THE MARKET, WHY NOT SKIP BLACK-AND-WHITE AND OPT FOR A NOTE THAT'S RED—OR GREEN OR ORANGE—ALL OVER? BY ELIZABETH BAILEY

New digital technology has freed graphic designers to reimagine traditional letterpress, pairing unexpected pop colors with old-world three-dimensional designs. These pretty new looks, pressed into luxe stock, almost make e-mail a thing of the past. An irreverent journal or a set of note cards also makes a perfect gift. And you're sure to get a thank-you in return.
